

Laser Workshops

A SERIES OF 4 WORKSHOPS

BROUGHT TO YOU BY CANADIAN ENGRAVERS SUPPLY

www.laserstuff.ca

WORKSHOP #1

WEDNESDAY, MARCH 24th, 2010

NEW USER, BASIC OPERATION AND MAINTENANCE of your ULS system

This session will be a 1 day workshop ideal for new VERSA owners but there is something for everyone!
The machine used will be a VLS with the new software. We will be covering:

- laser operation, installation and set-up, laser safety
- laser system care and maintenance
- optimizing your system's performance
- tips for your applications
- laser compatible materials
- the OOPS! that commonly occur
- learn features of the ADVANCED DRIVER
- facts about tube re-charges
- multiple pass theory and much much more!

HAND OUTS included for future reference.

WORKSHOP #2

THURSDAY, MARCH 25th, 2010

LASERABLE MATERIALS workshop ROWMARK, CERDEC, ALUMAMARK

Learn about new materials from ROWMARK

Receive FREE product samples and FREE Rowmark sign making kit CD

SPECIAL pricing on product to all attendees

Learn tricks and tips for using: LaserGLOW, LaserLIGHTS, LaserMAG, Metalgraph PLUS, and the popular LaserMAX and LaserMARK

CERDEC: Learn how to use this metal marking compound for marking bare stainless and a variety of other applications

ALUMAMARK: "the finer points" Learn how to properly engrave on Alumamark and create black positive graphics on aluminum without the need for chemicals or fill!

OTHER METALS: Find out tips and differences between painted and anodized metals and how to use them for their appropriate applications. See our NEW Cesco Laserable Metals Swatch Book!

PLACE: Canadian Engravers Supply, Unit #4 NEW Education/Training/Seminar Room

TIME: 9:00 am - 12:00 pm break for lunch 1:00 pm - 4:00 pm

WORKSHOP #3

WEDNESDAY, April 21st, 2010

LASERING TECHNIQUES workshop Part 1

- RUBBER STAMPS:** Learn how to use your laser to make Rubber Stamps, and try odourless rubber.
WOOD: Learn how to laser and vector into all different types of woods, tips and tricks.
FABRIC/TWILL: If you are in the sports lettering industry or would like to be, you will learn how to make your own custom twill appliqués.
LEATHER: Learn the many possibilities of etching and cutting leather.
PAPER: Explore the area of crafting and fine detail possible on many types of paper.
STENCIL: Discussion about creating your own stencils.

NEWLY ADDED: Using COREL DRAW X4 from start to finish to help you understand short cuts in creating job files and save precious time!

HAND OUTS included for future reference.

WORKSHOP #4

THURSDAY, April 22nd, 2010

LASERING TECHNIQUES workshop Part 2

- GLASS ENGRAVING:** Tips and tricks.
USING YOUR ROTARY FIXTURE: Learn how a rotary fixture can assist you with glass engraving.
PHOTOBRASIVE: Learn how to integrate your laser by using pre-mask prior to sand-blasting.
LASERABLE TILE: Discover what you can create with special tile made for lasering.
PHOTOGRAPHS ON MARBLE: Enjoy creating wonderful photographic creations onto marble, learning the finer points of lasering photographs.

NEW UNIVERSAL LASER 1-TOUCH PHOTO SOFTWARE

- MULTI MAT:** A more permanent solution to hold-down tape.
MAKING CUSTOM FIXTURES: Your laser is capable of creating actual fixtures to create easy-to-use templates for specially shaped objects. Learn how to create custom pen and anodized tag jigs and how to create templates for point of purchase events.

Using COREL DRAW X4 for most important features such as transform docker, layers and proper layout for multiple job creation.

PLACE: Canadian Engravers Supply, Unit #4 NEW Education/Training/Seminar Room
