General Legend for Granites

FlexiBrass® actually has the flexibility to wrap around a curved surface, such as a trophy base or pipe. It is micro-surfaced product available with pre-applied adhesive for easy application to a variety of surfaces. Easily fabricated allowing you to cut it with scissors, and it doesn't tarnish like real brass! FlexiColor serves a multitude of purposes in the ad specialty market and for indoor signage. Easy to fabricate, light weight, and does not have sharp edges.
