WHAT IS SUBLIMATION?

What is Sublimation?

Sublimation (sūblimā'shun)

noun: (chemistry) a change directly from the solid to the gaseous state without becoming liquid

Sublimation printing has been around for decades, but it wasn't until Sawgrass Technologies discovered a way to formulate sublimation inks so that they would print through an inkjet printer, that it became an economical and practical way to decorate a variety of substrates.

The process of sublimation printing:

1

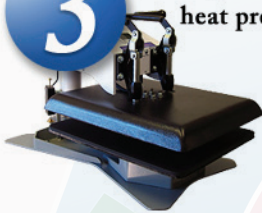

Create or import your artwork using a graphic program, like CorelDraw® or Photoshop®.

2

Print your image using SubliJet IQ® or ArTainium UV+ sublimation inks, a standard Epson® printer and high quality paper.

3

Using a standard flatbed or mug heat press, transfer the image onto...

4

...a wide variety of substrates including: mousepads, t-shirts, mugs, plaques and more!

When sublimation inks are heated to 400°F, they turn into a gas and form a permanent bond to 100% polyester fabric, or items that have a polymer coating. The image that remains, is a full-colour, high-quality, photographic image and will not crack, peel or wash away from the substrate!

Sublimation printing allows you to create short-run, highly customized images on demand. Imagine the possibilities!

EQUIPMENT

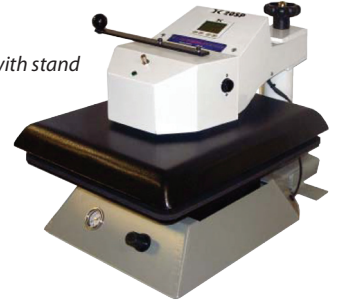

HP-DK20S
Digital Swinger
16" x 20" Heat Platen

- Automatic digital timer
- 70 Programmable presets
- SuperCoil-Microwinding™ heater technology
- Accommodates materials up to 1" thick
- Records number of pressing cycles done
- Teflon-coated 3/4" thick heat platen
- Lifetime warranty on heat platen
- 3-year warranty on control
- 1 year warranty on entire press

HP-DK20SP
Air Operated Press

**Also available as 20" x 25" with stand*

Air-operated 16" x 20" swing-away heat press with a state-of-the-art control system and heavy-duty solid steel welded framework. HP-DK20SP offers smooth automatic pressing and push-button activation resulting in a productive fatigue-free operation.

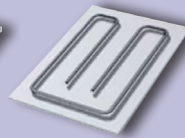

FEATURES:

Digital Control

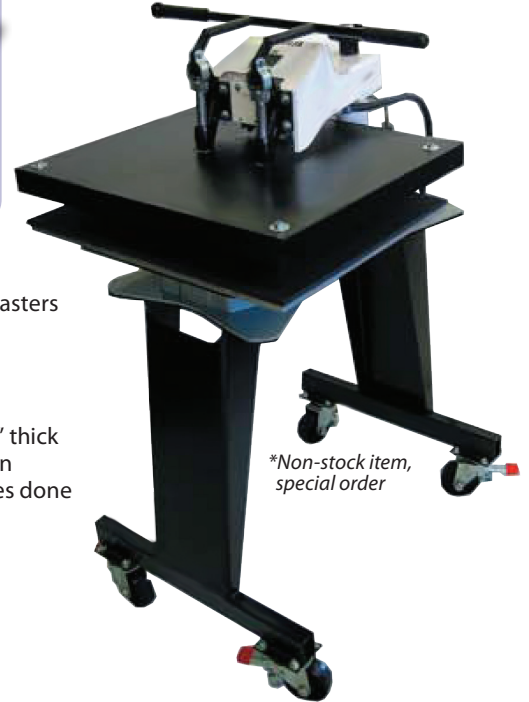

Super-Coil
Microwinding™
heat platen

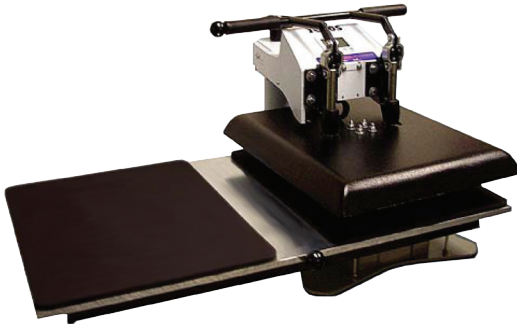

Brand X heat
platen

HP-DK20JS
Jumbo Digital Swinger
20" x 25" Heat Platen

**Non-stock item,
special order*

HP-DK20S-TWIN
Twin Shuttle Attachment

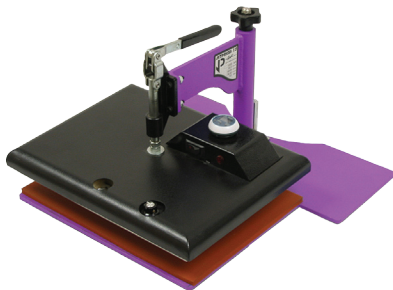

The Digital Knight Twin Shuttle Attachment is a dual station Add-On for the HP-DK20S swing away heat press. Adding a twin shuttle upgrade allows the operator to unload and load materials while a cycle is pressing.

- Weight: 70 lbs
- Dimensions: 40" L x 21" W x 8" H

HP-DK20JS:

- Oversized 20" x 25" heat platen
- Heavy duty stand with lockable casters
- Fully digital temperature control
- Digital pressure bar graph
- 70 Programmable presets
- SuperCoil-Microwinding™ heater
- Accommodates materials up to 1" thick
- Teflon-coated 3/4" thick heat platen
- Records number of pressing cycles done
- 220V, 4500W, 20A
- Dimensions: 32"L x 26"W x 42"H
- Weight 420 lbs
- 1 year warranty on entire press

HP-JP12
JetPress 12
9" x 12" Heat Platen

- Digital countdown timer with alarm
- Adjustable height for items over 1" thick
- Adjustable Temperature control
- Accurate Temperature gauge
- Smooth swing away action
- Silicone pad pressing surface
- Heating indicator light
- Modular cord & plug
- One Year Warranty

HP-JP14
JetPress 14
12" x 14" Heat Platen

HP-DC16AP
Air Operated Press

For users who desire the tabletop footprint of the Digital Combo, and need its versatility, but desire a more productive automatic pressing and release action.

- Automatic air operated pressing
- Automatic digital timer
- Interchangeable Heat Platens & Tables
- Solid steel welded framework
- SuperCoil-Microwinding™ heater technology
- Accommodates materials up to 1" thick
- 70 Programmable presets
- Teflon-coated 3/4" thick heat platen
- Lifetime warranty on heat platen
- 3-year warranty on control
- 1 year warranty on entire press
- 23"L x 23"W x 23"H
- Weight 140 lbs

HP-DK16
Digital Knight Clamshell
 14" x 16" Heat Platen

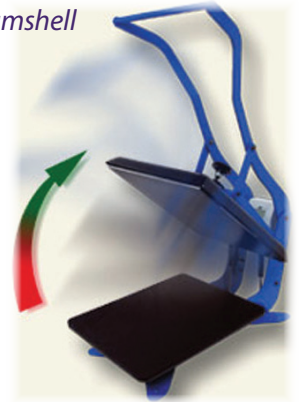

- Automatic digital timer
- SuperCoil-Microwinding™ heater technology
- Automatic lift / Gas spring action
- Opens up 110° for full access to table
- Teflon-coated 3/4" thick heat platen
- Lifetime warranty on heat platen
- 3-year warranty on control
- 1 year warranty on entire press
- Non-stock item

HP-DK16 "POP-UP"
Automatic Release to your Clamshell
 (add-on feature)

HP-DK16 "POP-UP" makes your Digital Clamshell act like a semi-automatic, air operated press, without the compressor.

Also available (not shown):
HP-DK7 Cap Press
HP-DK8 Label Press

At the heart of these machines is a state-of-the-art digital microprocessor control and proprietary heat control circuit field. This allows for an unprecedented 3 year warranty on the control. The Digital Knight controller features an oversized Bright Blue Backlit LCD display for easy reading of parameters. The controller has an array of extremely useful features, such as user programmable presets, automatic timing, dual prepress cycle timers, odometer, selectable alarms and much more. The heaters on all platens of the Digital Knight line use an exclusive coil winding technology for superior evenness and speed of heating. All Geo Knight & Co heat platens are lifetime warranted and guaranteed against cold spots.

HP-DC16
Digital Combo Press
 14" x 16" Heat Platen

The Digital Combo multipurpose swing-away heat press comes standard with a 14" x 16" heat platen and lower table (12" x 14" or 6" x 8" available on request).

HP-DC16 allows for pressing over 1" thick products. This Digital Combo press utilizes quick-change attachments for heat transferring images onto a wide variety of materials. Available for this one press is every attachment necessary to professionally imprint:

- T-Shirts
- Caps
- Ceramic Plates
- Ceramic Tiles
- Mugs
- Mouse Pads
- Paper Memo Cubes
- Tote Bags
- Jigsaw Puzzles
- Lettering
- Wood / Metals

HP-DC-CUB
Cube Attachment

Memo cubes are properly clamped and pressed in the cube fixture. Images are pressed around the cubes' sides for a continuous image wrap.

HP-DC-MUGF
Full Mug Attachment
 for HP-DK3

No need to detach any heat platens or tables from the Combo press, just plug this mug attachment into the heat platen connector!

HP-DK3
Digital Mug Press
 13"L x 15"W x 15"H

Replacement Heat Element HP-DK3-ADP

- Programmable presets
- SuperCoil-Microwinding™ heater technology
- Soft heater liner accommodates inconsistent mugs
- 1 year warranty
- Weight 30 lbs

HP-DC16-TWIN
Twin Shuttle Attachment
 *press not included

This shuttle is solid aluminum, holding any heavy or rigid imprintable products as well as fabric. The Twin Attachment will also work with the HP-DC16AP Air Operated press, for an automatic, twin station small footprint production solution.

HP-DC-CAP
Cap Attachment

Plug in the heater, drop on the table and you have a heavy duty swing-away cap press.

*Optional bottom forms available.

HP-DC-PLT4 & HP-DC-PLT5
Plate Attachments

HP-DC-PLT4 for small plate

HP-DC-PLT4 for large plate

The plate die platens feature quickly interchangeable components allow the circular heating element to press inside ceramic plates. Included is a template tray and pad for centering the plate.

Start your Sublimation with success!
Know your variables:

TIME: To allow the ink to "migrate".

TEMPERATURE: Transfer begins at 350-400°F.
Know your "dwell" times.

PRESSURE: Avoid "ghosting" or "blowout".

THE ONLY ALL-IN-ONE SYSTEM ON THE MARKET

Combining Cotton Decorating with **ChromaBlast™** and Sublimation with **SubliJet®**

How the ChromaBlast™ System Works

- 1 Create or import your artwork using a graphic program, like CorelDraw® or PhotoShop®. Customize and control your colour output through the ChromaBlast driver.
- 2 Print your image using ChromaBlast inks, a standard Epson® printer, and high quality ChromaBlast media.
- 3 Using a standard heat press, transfers the image onto cotton...
- 4 And create an instant customized image ready for sale that feels and looks great wash after wash!

- Incredibly Soft Image Feel
- Vibrant Color - Wash After Wash
- Overprint Washes Away
- Affordable System
- Fast & Easy Customization

What is ChromaBlast™?

ChromaBlast™ is a unique patented in and media combination driven by powerful software to create the best cotton imaging system available. As heat and pressure is applied to the cotton, a chemical cross-link with cotton occurs. The result is a customized cotton shirt with soft hand, vibrant colour and superior washability.

INK PLATFORMS

SubliJet-R® is a unique high viscosity gel ink formulated specifically for the Ricoh® print head. This powerful collaboration allows the users to create fast, vibrant, permanent images on a wide variety of substrates to maximize your business' potential and profit. The key to the patented SubliJet-R® system is the chemical process. When sublimation inks are heated to 200°C, they turn into a gas and form a permanent bond to 100% polyester fabric or items that have a polymer coating. The result is a premium, full colour, photographic quality image that will not crack, peel or wash away from the substrate to which it was applied.

ArTainium UV+™ sublimation ink is best known for its reliability and affordability. These sublimation inks cost-effectively provide professional results for those who prefer to rely on their own colour management expertise and those who require less technical support. ArTainium UV+™ inks produce stunning graphics, quickly and easily, enabling your business to capitalize on the visual power of sublimation. ArTainium UV+™ provides plenty of artistic flexibility through the use of ICC Colour Profiles for easy and accurate colour management and exceptionally quick print speeds. The optional continuous ink system allows users to achieve the lowest possible cost-per-print.

Call our office for details

Formulated for popular Epson® inkjet printers, SubliJet IQ® sublimation ink systems combine the industry's highest quality sublimation inks with easy-to-use colour management software and comprehensive support for a complete solution for printing brilliant sublimation transfers. PowerDriver® is Sawgrass' award winning and user-friendly colour management software and is FREE with all SubliJet IQ® systems, allowing users to easily manage output for high quality prints time after time! The key to the patented SubliJet IQ® system is the chemical process. When sublimation inks are heated to 200°C, they turn into a gas and permanently bond to 100% polyester fabric or items that have a polymer coating. The result is a premium, full colour, photographic-quality image that will not crack, peel or wash away from the substrate to which it was applied.

PhotoSLATES have natural differences in the rocks unique to each piece. It is a substrate for sublimation transfer combining full colour photographs with the natural beauty and durability of rustic slate. A fine-grained sedimentary rock, PhotoSLATE's uniform thickness and ultra flat coated image area provide consistent photo transfers while the individually fractured edges help to seamlessly blend images into each piece – resulting in elegant and one-of-a-kind photo gifts and awards.

VAPOR APPAREL FABRIC

VAPOR APPAREL

Patented Permanent Moisture **Wicking** Technology

From athletes to landscapes to surfers – there is no place for cotton in the outdoor enthusiast's wardrobe. Cotton absorbs water, causing it to become noticeably heavy and uncomfortable. It does not dry rapidly, inviting mildew, odor, and bacteria. There are many lines of apparel boasting a variety of wicking technologies. Intera's unique patented permanent moisture wicking technology helps fabrics regulate temperature and offers long-term wickability. Vapor Apparel's exclusive use of Intera's revolutionary wicking technology make it a leader for customized apparel solutions.

VAPOR APPAREL PERFORMANCE FABRICS

The Basic Line – The look and feel of cotton – a revolutionary performance fabric, this wicking garment is built to last and offers odor, bacteria, and mildew resistance.

The Lady's Touch Line – Energizing colors that break away from the pack - shed the humdrum of white with this fabric that takes a feminine approach to high performance apparel. Deliver more value by combining fit, fashion, and function.

The Micro Line – For the true athlete – made of high performance micro-fiber, this fabric offers a smooth feel that keeps you warmer in winter and cooler in the summer.

Intera FASTEST DRY TIME
in the industry
PROVE IT! In controlled wash & dry tests, Intera dried as much as 100 minutes faster than the best performing fabric coatings on the market today.

Intera's unique patented permanent moisture wicking technology helps fabrics regulate temperature and offers long-term wickability. Offers odor, bacteria and mildew resistance. The technology is in the yarn, not a coating applied later.

LAUNDRY CARE for ALL VAPOR APPAREL PRODUCTS

- ✓ Never use dryer sheets or fabric softener
- ✓ Use minimum amount of detergent
- ✓ Additives can clog the fabric, inhibiting the wicking power of the fiber
- ✓ Bleach and scent free detergents are recommended

EXTRA HIGH QUALITY IMAGING

- ✓ No searing on surface
- ✓ A revolution in sublimatable metal
- ✓ UNI-SUB® premium aluminum offers you a perfect transfer every time

PREMIUM UNISUB® ALUMINUM vs STANDARD SUBLIMATION ALUMINUM:

This is a cautionary note that if you purchase standard sublimation aluminum you will need to be very precise in your processing variables of time, temperature and pressure, otherwise you will experience "searing" (a filmy masked residue that does not come off). This is due to the fact that the standard aluminum coating is very sensitive to time, temperature and pressure and too much of any of these variables will cause this undesirable effect.

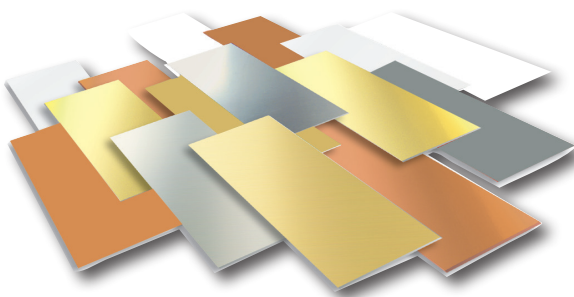

PREMIUM UNISUB® SUBLIMATABLE ALUMINUM & STEEL

STARTER KIT UNI-CHR-KIT 5864

Assortment of ChromaLuxe® products, including eased and hinged photo frames

ChromaLuxe™ photo panels are an exciting new line of sublimatable products from UNISUB®. These panels allow you to sell a completely finished photo product to your customers, capturing some of the additional revenue (and profit) your customers now spend elsewhere on framing. Available in a range of traditional photo sizes as well as exciting new shapes, these panels can be used to create stunning photo displays – perfect for a fireplace mantle, living room wall, library shelf, or the top of an armoire.

ACTION EASEL

Laser-cut hardboard with black backing and pre-attached easel. For horizontal or vertical use.

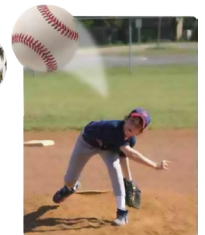

Action Easels

are a unique and one-of-a-kind sublimatable custom photo panel. These dynamic photo panels used "Posed Action Shots" to make any sport player seem like an athletic powerhouse.
